

CSE Department System Administrators Team

What is the CSE SysAdmin Team?

A team of undergraduate students dedicated to maintaining and developing the Computer Science & Engineering Department's technological infrastructure.

Requirements

- Must continuously learn new skills and techniques
- Have self-direction to complete tasks and experiment
- Be currently enrolled as a Computer Science or Information Technology student
- Have experience with Linux
- Must be able to work individually, as well as on a team

Preferences

- Skill with common linux tools like `ssh`, `git`, `gpg`, `nc`
- Practical knowledge with Debian, BSD, Centos
- Experience with LDAP, Kerberos, and NFS
- Freshman or sophomore standing
- *Note: although experience is preferred, it is not necessary*

Benefits

- Gain experience with managing a complete small-scale network
- Improve the department's infrastructure/services for students and faculty
- Learn about network security
- Possible recommendations

How to Apply

Send an email to sysadmin@cs.nmt.edu by Friday, September 13th, 2015. Please include your contact information, OS and programming language preferences, work-study eligibility, and a resume.

After September 13th applicants will be contacted with more information.
